Drawings

1. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: formal drawings including the changes to the drawings filed 7/30/02, and including reference numbers which are legible and of uniform size. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

2. The following is an examiner's statement of reasons for allowance: the prior art does not show a universal motor having a stator having 2P poles, a ferromagnetic rotor core having a number of slots S and a number of teeth S separated from a stator core by an airgap, and a commutator with a greater number of segments than the number of rotor slots S with a concentrated winding rotor on a plurality of teeth each having a simple non-overlapping coils (plural) of insulated wire with each coil wound around a single tooth only and each terminal of each coil is wound on a tooth is connected to a different commutator segment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
